Project: National Survey of Substance Abuse Treatment Services (N-SSATS) (OMB No. 0930-0106) — Extension

The Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting an extension of the National Survey of Substance Abuse Treatment (N-SSATS) data collection (OMB No. 0930-0106), which expires on September 30, 2020. N-SSATS provides both national and state-level data on the numbers and types of patients treated and the characteristics of facilities providing substance abuse treatment services. It is conducted under the authority of Section 505 of the Public Health Service Act (42 U.S.C. 290aa-4) to meet the specific mandates for annual information about public and private substance abuse treatment providers and the clients they serve.

This request includes:

- Collection of N-SSATS, which is an annual survey of substance abuse treatment facilities; and
- Updating of the Inventory of Behavioral Health Services (I-BHS) which is the facility universe for the N-SSATS. I-BHS is also the facility universe for the annual survey of mental health treatment facilities, the National Mental Health Services Survey (N-MHSS). I-BHS includes all substance abuse treatment and mental health treatment facilities known to SAMHSA. (The N-MHSS data collection is covered under OMB No. 0930-0119.)

The information in I-BHS and N-SSATS is needed to assess the nature and extent of these resources, to identify gaps in services, and to provide a database for treatment referrals. Both I-BHS and N-SSATS are components of the Behavioral Health Services Information System (BHSIS).

The request for OMB approval will include a request to update the I-BHS facility listing on a continuous basis and to conduct the N-SSATS and the between cycle N-SSATS (N-SSATS BC) in 2021, 2022, and 2023. The N-SSATS BC is a procedure for collecting services data from newly identified facilities between main cycles of the survey and will be used to improve the listing of treatment facilities in the online Behavioral Health Treatment Services Locator.

Estimated annual burden for the BHSIS activities is shown below:

Type of Respondent and Activity	Number of Respondents	Responses per Respondent	Total Responses	Hours per Response	Total Burden Hours
STATES					
I-BHS Online ¹	56	75	4,200	0.08	336
State Subtotal	56		4,200		336

² New facilities complete and submit the online I-BHS application form in order to get listed on the Inventory.
